Ben Heller, PricePoint (Moderator)	Global Assignments- Challenges and Trends
---	--

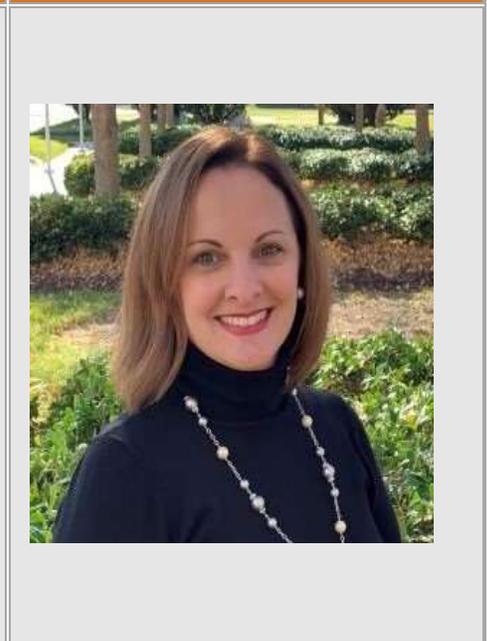

Ben Heller is the CEO and Chief Customer Officer of PricePoint, a software platform that makes move pricing simple. Prior to joining PricePoint, Ben ran the global mobility consulting practice at Accenture where he evaluated and improved his clients' mobility supply chain. He found that move pricing is complex, slow, and vulnerable to manipulation. Because of this, it wasn't reasonably possible to ensure clients' received quality moves at a fair price.

In 2016, he joined PricePoint to solve this problem for movers, RMCs, and their clients. With PricePoint, movers connect to their partners to automate their pricing. RMCs and mobility platforms connect to their moving partners to enable a better customer experience, a faster move, and ensure a market competitive price on every move. There's no longer a need for RFPs, multiple move surveys, or audits. With PricePoint, move pricing becomes simple, connected, and better for everyone.
